CLEAN
ENERGY
FOR
EVERYONE

**PROMETHEAN BIOFUELS PROTECTS THE
ENVIRONMENT BY RECYCLING USED COOKING
OILS TO MAKE RENEWABLE FUEL.**

WHY MAKE FUEL WITH WASTE VEGETABLE OIL?

Vegetable oils generate fewer ozone-producing unburned hydrocarbons, no sulfur, and less carbon monoxide than diesel fuel. Consequently, biodiesel is considered a much cleaner alternative to conventional petroleum-based diesel.

Using oil that has already been used once for deep-frying is a wonderful recycling opportunity for the community.

PROMETHEAN TAKES A PRODUCT THAT IS NO LONGER USEFUL AND GIVES IT A SECOND LIFE!

BIODIESEL
RENEWABLE FUEL.

We apply **the best available processes** to treat and process water and control odor **to promote a clean and safe environment.**

RENEWABLE ENERGY FROM RECYCLABLES

One of the highest forms of use can be attained from used and waste oils.

ENVIRONMENTALLY FRIENDLY

Biodiesel is easier on the environment than petroleum based diesel; the U.S. government has recognized this fact and has mandated the use of it and other alternative fuels in an Executive Order.

ETHICALLY PRODUCED DOMESTICALLY

Jobs we can be proud of that support our tradition of American Independence and promote an energy independent future.

... FROM WASTE OIL.

PROMETHEAN BIOFUELS PROVIDES A TOTAL SOLUTION.

FATS, OILS, AND GREASE MANAGEMENT IS THE LAW.

State of California law requires that grease and solids be removed from traps every 90 days.

Your establishment must have working grease traps.

Service must be provided by a State of California approved hauler.

There must be receipts and other well-maintained records to show to the local authorities.

- The average restaurant generates 13 lbs. of grease per customer per year.
- Fats, Oils, and Grease (FOG) should not enter the municipal waste water system.
- Biodiesel is non-toxic in its pure form produces less emissions than petroleum diesel.
- Lower emissions = cleaner air!

Promethean Biofuels offers:

1. Clean, reliable, **TIMELY** service
2. Licensed, bonded, insured
3. Courteous and friendly drivers
4. Competitive pricing
5. Accurate records
6. Proof of compliance
7. Easy to use collection bins
8. Professional grease trap services
